

# Advanced Intimate Waxing

## A bit about the course:

Our Advanced Intimate Waxing Course is designed for those who are trained in warm waxing, and would like to further enhance the waxing treatments able to be offered to clients from home and/or mobile. You will be taught specialized, female intimate waxing treatments and learn the theoretical knowledge, as well as safety procedures involved in practicing these treatments to an industry-standard. A hair removal specialist can command as much as £50 an hour, so this is certainly a lucrative treatment to be able to offer to clients.

## Course Duration

This course is structured over one day and runs from 10am – 4pm. We ask students to arrive at 9.45am to ensure a prompt start. You will learn the theory of the treatment firstly, and spend the majority of the day practising your practical skills, with a short break for lunch. You will be required to give and receive intimate waxing treatments as part of this course, and therefore be expected to allow hair growth suitable for waxing prior to attending the course. Male students will need to bring along a female model to complete this course.

## What is included?

- Health, safety & hygiene
- Consultation techniques
- Contraindications
- Brazilian wax procedure
- Hollywood wax procedure
- Aftercare advice

Price : £75.00
