

Our 3 day Advanced Nail Technician Package is suitable for beginners and experienced nail technicians who wish to upskill or refresh their knowledge. It runs over 3 consecutive days and on completion you will receive a Diploma Certificate (4 qualifications in total).

The Package includes:

Manicure & Pedicure
Acrylic or Gel Nail Extensions
The Art of E-Filing
Nail Art

Day 1

## Manicure & Pedicure

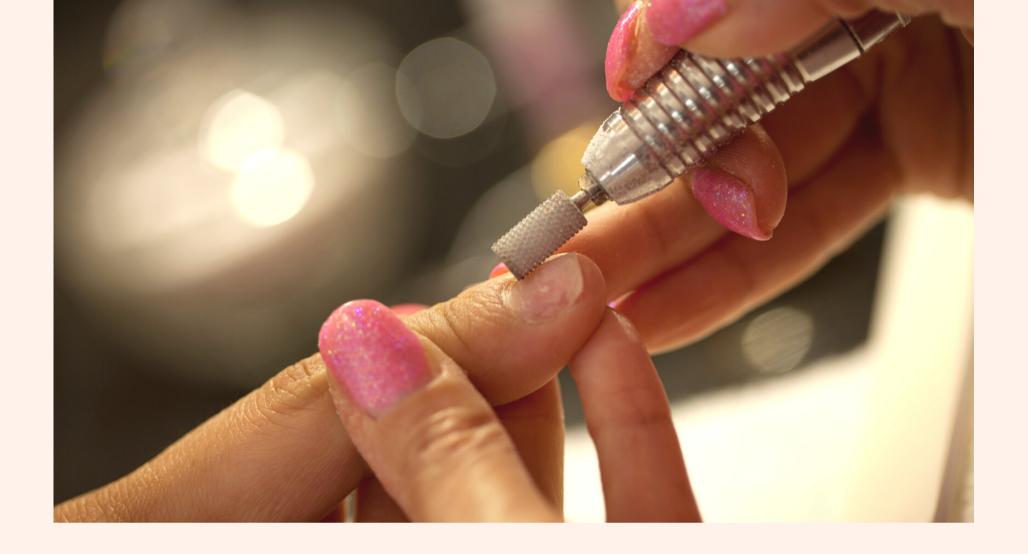

Day 1 will focus purely on the skills required for two of the most requested services within the beauty industry, specifically how to perform these treatments with confidence, adhering to a professional level of service. These are fundamental treatments to offer if you are looking to work as a nail technician, especially as they are in high demand all year round for clients of all ages.

Day 2

## Acrylic Nail Extensions

Day 2 will focus on the art of creating nail extensions using acrylic and will teach you the extension process so you are able to begin offering this treatment to your clients. Being one of the most popular nail-enhancement services, this session will take you through nail anatomy, health & safety, the extension procedure, blending techniques and maintenance procedure, including aftercare advice.

Day 3

## Nail Art & E-File

Day 3 will focus on Nail Art as a creative way for your clients to embrace fashion trends, their style and personality.

You will then learn how to competently use an electric filing system (efile) on nail enhancements for maintenance, removing lifting, removing gel polish, finish filing and reshaping of nail enhancements.
