

Classic Lashes

A bit about the course:

Our Classic Individual Eyelash Extensions Course is designed to teach you the popular technique, used by many, to enhance the eyes with synthetic extensions to give the appearance of longer, thicker natural lashes.

Not only will you learn how to effectively apply and remove lash extensions, you will also learn how to accurately adapt the application process to the client's particular eye-shape, for the desired effect.

During the course you will carry out treatments upon a professional training mannequin head allowing you the maximum time possible to acquire the skills and work upon your technique.

Course Duration

This course is structured over one day and runs from 10am – 4pm. We ask students to arrive at 9.45am to ensure a prompt start. You will learn the theory of the treatment firstly, and spend the majority of the day practising your practical skills, with a short break for lunch. Practical is carried out using a professional mannequin training head allowing you the maximum time possible during the training day to work upon acquiring and demonstrating the required technique. Therefore there is no requirement to remove any lash extensions or make up prior to attending the course.

What is included?

- Health, safety & hygiene
- Consultation techniques
- Contraindications
